

WEF Feature Members for February 2007

**Laura White
State Farm Insurance
Agent**

WEF member Laura White is in her fifteenth year as a State Farm Insurance agent. After getting a psychology degree from the University of Windsor she spent about ten years in banking which provided an excellent background for what she does today. State Farm has seventeen agents in the Windsor area with only three women in the mix. Her father has been an agent for 42 yrs. and is nearing retirement. Laura sells property and casualty insurance, life, business and disability insurance. She also offers financial services through Aim Trimark including RRSPs and RESPs.

Her main goal this year is to reach out to women to help them understand the products and educate them to the need to have someone manage their risks. As entrepreneurs we all take risks but my job is to help you minimize those risks.

Please feel free to call her at her office (519) 979-0400 and mention that you are a WEF member. Her fax number
