(under construction)

Mitzi is a graduate of the St. Clair College, Commercial Art program (1984), and has worked in the printing, pre-press, and graphic design Industry for over twenty years.

In 2006, Mitzi started her own company as an independent Graphic Designer. MITZI DESIGNS develops visual advertising, from its initial concepts and creative ideas, into complete eye-catching images and innovative designs.

During your first free consultation, your company's individual branding needs are closely evaluated. Mitzi specializes in designing printed advertising that reflects positive imaging for your business, while promoting your product or service, with quality graphic designs and photography.

In order to stretch your advertising dollars around cost-effective marketing solutions, once your project is complete, Mitzi provides you with a CD containing your reproducible files. These files can be used on your website, printed from your own printer, or taken to any printing company to be reproduced to any quantity amount you request.

(In addition to graphic design services, Mitzi Designs can also provide print quotes and completed, printed product.)

Mitzi's niche is creating large size collage poster designs with digital photography (or scanned in photos), for your home or office environment. These creative collages can be designed to fit almost any frame size, and printed to be displayed in lobbies, conference rooms, Living rooms, hallways etc. A great way to create a visual history of your company, school event, or family heritage.

For all your Graphic Design Services . . . Business or Home . . . mitzi **DESIGNS**
